CHOOSE RENEWABLE ENERGY

Sign up for Sioux Valley Energy's REC program and power your home or business on renewable energy.

Sioux Valley Energy has Renewable Energy Credits (RECs) available for purchase to offset your current usage with 25%, 50%, 75% and 100% renewable energy options.

The electricity you receive will still be the same reliable, affordable energy you have always received from Sioux Valley Energy but, by participating in this program, you will be supporting current and future renewable projects. By purchasing RECs, your business could add value to your products or services, promote future regional renewable projects and showcase your support for renewable energy sources.

FAQS

What is a Renewable Energy Credit (REC)?

- 1 MWh (megawatt hour) produced by a renewable energy source equals 1 REC
- RECs are also called Green Tags
- RECs represent the valuable renewable attributes of wind energy

How much does it cost?

\$1 per MWh.

Example: If you use 1,200 kWh per month, participating in the REC program would add \$1.20 + tax to your monthly bill.

Do I need to purchase any special equipment?

No. Sioux Valley Energy will continue to fulfill all your electric needs and you can enjoy the benefits of renewable energy.

What are my payment options?

You will be billed monthly based on the kWhs used. The additional charge will appear on your normal monthly electric statement.

Where do the RECs come from?

The RECs come from several wind farms, solar projects & recovered energy generation in the region that supply renewable energy to Sioux Valley Energy. These include, but are not limited to:
